REMOTE
WIRELESS
PROGRAMMABLE

Home Automation from OAS... it's EASY!

On vacation? At the office? Stuck in traffic?

**Control your systems from
wherever you are.**

Using your smart phone, tablet, or PC you can watch your home surveillance, adjust lights, music and thermostats, and be alerted to problems at your house.

- Pre-program all your lighting to go to your preferred settings with a single touch. You can define many alternative lighting combinations to create different moods for different occasions.
- Pre-program your HVAC and lighting systems to your most common schedule. Override these settings at any time from anywhere.
- Wireless Systems – No costly wiring needed.
- Integrates with your existing AV Systems.
